6. Highlights:

Welcome to Hemnalini Memorial College (HMC) of Engineering.

Whether you join our Civil and Environmental Engineering course (offered for the first time in West Bengal) or any of the other four courses. (CE, ME, CS&E, FT), you will be part of our team with a common theme: Environmental Engineering. All of us must be Environmental Scientist / Engineer. We have to address our environmental problems from the design phases instead of addressing them after the fact". Environmental engineering is not only a multi-disciplinary course. It must be an integrated subject in all science and engineering subjects and must not be separated from any subject. Even social science courses, particularly sociology is important for Environmental Science and Engineering.
